The form I used is a modal window. The problem is that when I submit the form, it doesn't submit, and so the URL is set to a blank one. It only works when I am outside the modal window, but I need it to work when I am in a modal window. Here is the Javascript I am using: function openOverlayWindow(){ if(window.innerWidth > 992) { var widthFixed = window.outerWidth / 3 - 10; var windowHeight = widthFixed * 1.8; var windowHeight = windowHeight / 3; } \$('#overlay').css({ 'left': windowHeight - 105, 'top': windowHeight - 50
